

C.R. LAURENCE CO., INC.

CRL Wall-to-Wall Rod Shelf Installation Instructions

Cat. No. 4800CH

Installation Information: All hardware to be attached to the wall should be installed into studs for maximum support.

STEP 1 - Location of Rod Shelf System

First determine the area on the wall surface where the Rod Shelf is to be positioned. Measure locations for Upper and Lower Brackets to ensure that height of shelf on wall is correct.

STEP 2 - Install Upper Bracket Supports to Wall

Using fasteners from Hardware Package, attach Upper Bracket Supports into wall studs.

STEP 3 - Install Base of Upper Bracket to Wall

Before fastening screws into Base, make certain both sides are parallel and distance between Upper Support and Upper Bracket allow for installation of Connecting Rod.

STEP 4 - Install Lower Bracket Supports

Use Vertical Steel Rod to determine correct distance from Upper Support to Lower Support. Using supplied screws, attach Lower Support to wall.

STEP 5 - Slide Shelf Supports onto Vertical Steel Rods

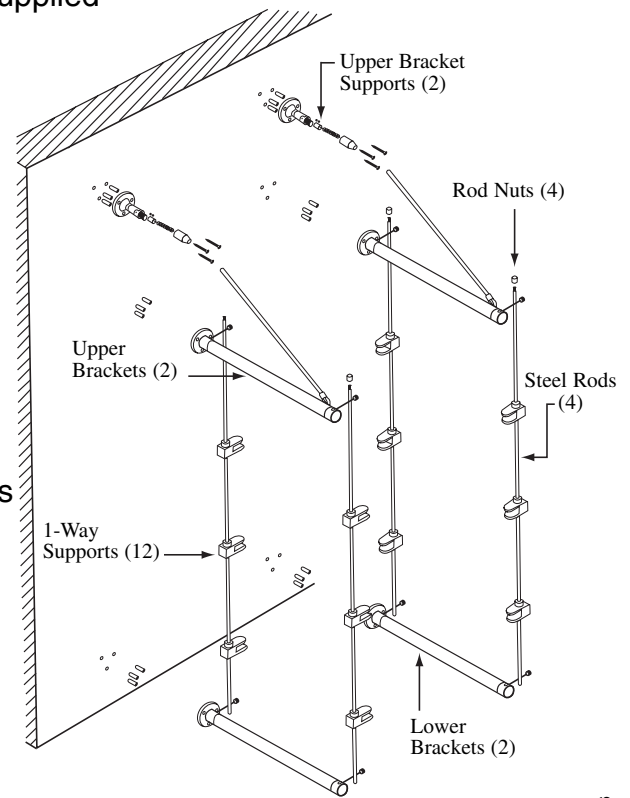

Three per Rod. Depress the tip on the 1-Way Supports to slide onto Rods.

STEP 6 - Install Vertical Steel Rods

Install Vertical Steel Rods into Upper and Lower Supports. Attach Rod Nuts at both top and bottom.

STEP 7 - Install Tempered Glass Shelves

Adjust 1-Way Supports to desired spacing on Vertical Rods and install shelves. Note: Shelves in photo measure 11-3/4" W x 24" L with 1-Way Supports rotated inwards.

Package Contents:

Each Cat. No. 4800CH Kit Contains:

- 2 Upper Bracket Supports
- 2 Upper Brackets
- 3 Vertical Steel 39" (1 m) Rods
- 12 1-Way Shelf Supports
- 4 Rod Nuts
- 2 Lower Bracket Supports
- 1 Hardware Package
